👤 SUMMARY

Motivated and detail-oriented Software Engineer with 3+ years of experience in designing, developing, and deploying scalable web applications. Proficient in Java, Spring Boot, JavaScript, and cloud technologies. Passionate about writing clean code, solving complex problems, and collaborating in agile teams to deliver high-quality software solutions.

</> SKILLS

- **Languages:** Java, JavaScript, Python, SQL
- **Frameworks:** Spring Boot, React.js, Node.js
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools & Platforms:** Git, Docker, AWS, Jira, Jenkins
- **Concepts:** REST APIs, Microservices, OOP, Data Structures, CI/CD

🎓 EDUCATION

Bachelor of Technology in Computer Science

VIT University, Vellore
2017 – 2021
CGPA: 8.45/10

📁 PROJECTS

1. **E-Commerce Web Application**
Built a full-stack e-commerce platform using Spring Boot, React.js, and MySQL. Integrated Razorpay payment gateway and deployed on AWS.
2. **Task Management System**
Developed a task management application with role-based access using Node.js, Express, MongoDB, and JWT authentication.

🏆 CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Oracle Certified Professional, Java SE 11 Developer

🌐 LANGUAGES

- English – Fluent
- Hindi – Native
- German – Basic

🏢 EXPERIENCE

Software Engineer

Jan 2023 – Present

TechNova Solutions Pvt. Ltd.

Bengaluru, India

- Developed and maintained scalable RESTful APIs using Spring Boot and Java.
- Collaborated with frontend developers to integrate user-facing elements with server-side logic.
- Optimized application performance by implementing caching and database indexing, reducing response time by 30%.
- Deployed applications on AWS EC2 and managed CI/CD pipelines using Jenkins.
- Participated in code reviews, sprint planning, and daily stand-ups in an Agile environment.

Software Engineer

Jun 2021 – Dec 2022

CodeCraft Technologies

Bengaluru, India

- Designed and developed microservices using Spring Boot and deployed on Docker.
- Built dynamic and responsive user interfaces using React.js and Redux.
- Implemented secure authentication and authorization using OAuth 2.0 and JWT.
- Worked with PostgreSQL and MongoDB for data persistence and reporting.
- Fixed bugs and improved application stability, leading to a 25% reduction in critical issues.

Software Development Intern

Jan 2021 – May 2021

Innovatech Labs

Bengaluru, India

- Assisted in developing backend modules using Node.js and Express.js.
- Created REST APIs and integrated them with frontend applications.
- Wrote unit tests and resolved bugs under the guidance of senior developers.
- Gained hands-on experience with Git, Jira, and Agile development practices.

Web Development Intern

May 2020 – Jul 2020

WebSolutions Pvt. Ltd.

Remote

- Built static and dynamic websites using HTML, CSS, JavaScript, and PHP.
- Assisted in maintaining company websites and optimizing page load speed.
- Collaborated with designers to convert UI/UX designs into responsive layouts.
- Learned and applied best practices for clean code and cross-browser compatibility.
